Galuh Prahadi Gumelar

Backend Developer || Full Stack Developer || IT enthusiastic
Jakarta Raya, Indonesia

Ringkasan

Hello, I'm Galuh Prahadi Gumelar.

I graduated in Information Systems and have successfully completed
the Bootcamp Pijar Camp by Telkom Indonesia. With over 2 years
of experience in web development and Basic Networking, I have
expertise in various technology programming stacks, including
PHP, Laravel, Codeigniter, ExpressJS, VueJS, and NuxtJS, among
others. Currently, I am expanding my knowledge in system analysis,
machine learning, design, and Microtik. Since September 2022,
I have been working as a Backend Developer in the Publishing
Division at PT. Esports Star Indonesia (MNC Digital).

My primary interests in the technology, but I am open to exploring
other roles as well because I thrive on new challenges and learning
experiences.

Here is a summary of my technical skills:

Programming Languages: PHP, JavaScript.
Frameworks: Laravel, Express JS, Vue JS, Nuxt JS, Bootstrap.
Databases: MySQL, PostgreSQL.
Design Tools: Photoshop, Adobe Illustrator.
Other Skills: Networking, Git, HTML, CSS, AWS, Redis, Python, MS
Word, MS PowerPoint, MS Excel, and more.

If you have interested in my profile, I am more than willing to share
my detailed CV with you through DM or other platforms.
Thank you.

Let's connect on LinkedIn!
